

More Than Words®:

The Hanen Program® for Parents of Children on the Autism Spectrum and/or Social Communication Difficulties

Are you the parent of a young child on the autism spectrum or with social communication challenges? Do you wonder how you can help your child interact and communicate more easily with you?

Through the **More Than Words®** program, parents learn specific, research-based strategies to support their child's social communication and play skills during their everyday interactions and routines.

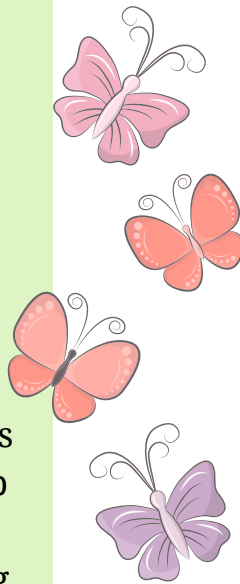

A Virtual Program to Empower Parents

The **More Than Words®** program is designed to support parents of children 2-5 years of age who struggle to stay engaged, interact and communicate with others.

Program Details:

This tele-practice program meets bi-monthly for eight small group sessions (2.5 hrs.) and three 60 minutes individualized coaching sessions. Limited to 10 families. Also offered individually.

What Parents will learn:

- How and why your child communicates
- How to help your child stay in interactions longer
- How to elicit communication during your everyday activities
- How to use your knowledge about your child to set goals and determine next steps
- Strategies for how to talk so that your child understands you
- Strategies for developing your child's play skills
